FISCAL IMPACT STATEMENT

LS 6317

BILL NUMBER: HB 1059

NOTE PREPARED: Dec 3, 2004

BILL AMENDED:

SUBJECT: Chemical Munitions Disposal and Transport.

FIRST AUTHOR: Rep. Grubb

BILL STATUS: As Introduced

FIRST SPONSOR:

FUNDS AFFECTED: **GENERAL**
 DEDICATED
 FEDERAL

IMPACT: No Fiscal Impact

Summary of Legislation: This bill substitutes for the permit requirement for destruction or treatment of chemical munitions a requirement to demonstrate that the munitions will be destroyed or treated to certain standards. It requires the Department of Environmental Management to implement an inspection and oversight protocol to ensure enforcement. The bill also requires a person proposing to transport chemical munitions or hazardous waste derived from the destruction of chemical munitions to file with the Department a transport risk analysis and a transport safety plan.

Effective Date: Upon passage.

Explanation of State Expenditures: This bill will require a person proposing to transport munition-related hazardous wastes to provide their own transport risk assessment. According to IDEM, the Department has currently spent \$13,000 on contracting out transport risk assessments and has encumbered another \$10,000 for this purpose. These expenses are paid through the Newport Cooperative Agreement IDEM has with the U.S. Department of Defense. Because these federal funds from the agreement may not be utilized for any other IDEM expenditures, this provision of the bill will not have an impact on the agency.

IDEM is currently in the process of implementing an inspection and oversight protocol, therefore the provision requiring such a protocol will have no additional impact on the Department.
